THE WAY GAMES

Bible trivia on your church TV

Leave the live game on your TV all week, and host your own trivia night whenever you like. Guests play on their phones. Setup takes about 10 minutes, and it costs nothing.

What you need

- A TV with a Fire TV Stick, or a laptop connected to the TV
- Wi-Fi where the TV is
- Guests with their own phones

Set up once

1. Go to **thewaygames.com**, tap **Venue login** and sign in with Google. Create your venue with your church name, city and email. It goes live right away.
2. On the TV, install **The Way – Trivia** from the Fire TV app store. It's free. On your dashboard, tap **Activate TV app** and type the short code into the TV once. The TV remembers your church after that.
3. No Fire Stick? Open your dashboard on a laptop, choose **Host from this browser**, then cast it or plug it into the TV with an HDMI cable.
4. Under **Branding**, add your church name, logo and color. They show on the TV and phones.
5. Under **Player QR**, print table tents or signs to display.
6. Open **Test player view** to see what guests will see.

Tips

- Put a TV in the lobby, youth room or café and leave the game on.
- Put the flyer in your Sunday bulletin.
- Small prizes help on trivia nights: candy, a gift card or bragging rights.
- Book your next trivia night before everyone leaves.
- Need help running it? Invite helpers by email from the **Team** tile on your dashboard.

Two ways to play

All week: the live game. The game runs on your TV 24/7. Anyone walking by can scan the QR code and jump in. Use **TV ads** to show your own slides between rounds, like next week's events.

Your own trivia night. Schedule a private night in **Trivia Night Builder**. At start time the TV switches to your game. When it ends, the TV goes back to the live game.

Hosting a trivia night

Before	Book it in Trivia Night Builder.
Start	Welcome everyone and pray. Tell them fast answers and streaks score more points.
Play	Call out the leaders between rounds. Kids vs. adults makes it loud.
Finish	Crown the winners, read one verse from the night, and announce your next date.

Questions hosts ask

Do guests need to download an app?
No. They scan the QR code with the phone camera.

Is it good for kids?
Yes. More than 2,600 Bible questions come in easy, medium and hard, so a family can play together.

Can we play as teams?
Yes, if you want. Team mode is optional. When it's on, players join a team, and each person still answers on their own phone.
